DIGITAL

Literacy

Digital Literacy

Digital Literacy is the ability to resposibly and effectively use digital Technologies- like computers,smartphones, and the internet-to find,evaluate, create , and communicate information.

Key Components of Digital Literacy

- **Information Literacy**
- **Technical Skills**
- **Communication Skills**
- **Digital Safety(Cyber Awareness)**
- **Content Creation**

Some Useful Digital Tools

- Note-Taking & Organization Tools :- Evernote, Microsoft OneNote, Google Keep
- Study & Revision Tools :- Quizlet, Kahoot
- Writing & Grammar Tools:- Grammarly
- Research & Learning Platforms:- Google Scholar , Google Classroom
- Creative & Presentation Tools:-Canva, Microsoft Powerpoint

Some safe Internet practices

Use Strong Passwords

- Create passwords with letters, numbers, and symbols
- Avoid common words like “123456” or your name
- Use different passwords for different accounts
- Consider using a password manager (like LastPass or Bitwarden)

Some safe Internet practices

Enable Two-Factor Authentication (2FA)

- Adds an extra layer of security
- Even if someone knows your password, they can't log in without a second code
- Apps like Google Authenticator help generate secure codes

Some safe Internet practices

Beware of Phishing Scams

- **Don’t click suspicious links in emails or messages**
- **Check sender details carefully**
- **Never share OTPs, passwords, or bank details**

Some safe Internet practices

. Install Antivirus Software

- Helps detect and remove malware
- Examples: Quick Heal Antivirus, Avast Antivirus

Professional Online Presence

A professional online presence means how you present yourself on the internet in a way that builds trust, credibility, and positive reputation—especially for studies, jobs, or business.

Key Elements of a Professional Online Presence

1. Clean & Professional Profiles
2. Strong Bio and Information
3. Appropriate Content
4. Professional Communication
5. Showcase Your Work
6. Manage Your Digital Footprint
